# Checkout and Store Operations at REMA 1000 powered by CLOUD4RETAIL

## Quick Facts

---

Customer – REMA 1000, leading Norwegian grocery retailer

---

Scope – 680+ stores across Norway

---

Solution – Implementation of GK CLOUD4RETAIL, enabling consistent, modern checkout and store operations

---

## Overview

REMA 1000, known across Norway for its efficient product range and strong customer focus, has chosen GK as its strategic technology partner to accelerate its core store operations. Together, the companies are rolling out GK CLOUD4RETAIL to enhance checkout, in-store processes, and continued innovation.

## Challenge

REMA 1000 was seeking a future-ready solution to help address the evolving demands of checkout and store operations, without compromising the consistency and simplicity that define its cutting-edge retail model. The company required a flexible and agile platform that could support innovation at scale while staying aligned with customer expectations.

## Solution

The rollout of GK CLOUD4RETAIL provides REMA 1000 with a robust, cloud-native platform to drive operational agility and efficiency. The solution enables:

---

A unified approach to checkout and in-store workflows

---

Rapid adaptation to changing retail demands

---

A scalable architecture that supports long-term business growth

---

The close collaboration between REMA 1000 and GK ensures an efficient, phased rollout across the full store network.

## Results

---

Rapid implementation with a collaborative, agile approach

---

Aligned store operations to support long-term innovation

---

A strong foundation for evolving customer and business needs

---

As implementation continues, REMA 1000 and GK will further scale and refine the rollout, continuing to innovate and adapt in line with the needs of a dynamic retail market.

---

*“We’re honored that REMA 1000 has placed its trust in GK to support their digital evolution. This collaboration is built on shared ambitions for customer-centric innovation and teamwork. Together, we’re setting a new standard for grocery retail in Norway.”*

Michael Scheibner, CEO of GK Software
